Single Switch Power Window and Door Lock Bezel Repair Kit

(Set of 3)

1980 – 1986 F150, F250, F350 & Bronco

Repairs three switch bezels:

- Drivers door lock
- Passengers door lock
- Passengers window switch

Contents:

- (3) Bezel Sleeves
- (3) Switch Clips
- (1) Tube Glue

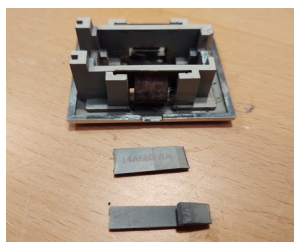

Figure 1

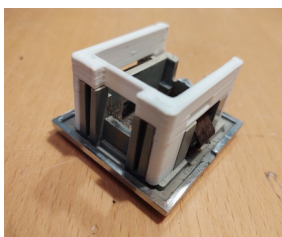

Figure 2

Instructions:

- Remove remaining full or broken clips from both side of the bezel (figure 1).
- Test fit the sleeve over the bezel making sure it's oriented as shown in figure 2. Then remove sleeve.
- Spread glue on each bezel corner as shown in figure 3. Glue should cover each corner surface completely but not excessively.
- Slide sleeve back into place. Press sides to make sure it's firmly seated.
- Let dry for 24 hours. **DO NOT INSTALL SWITCH UNTIL GLUE IS FULLY DRY.**
- Install bezel into door panel.
- While holding the door panel near the door slide the switch and wire harness into the back side of the bezel/sleeve.
- Use the switch clip to secure the switch to the bezel. (figure 4)
- Repeat for other bezels
